

Training & Placements

At Bird Academy our endeavor for perfection does not end at the completion of student's course. We strive to ensure that a student is well settled once he/she is out of the institute. Hence placement process is given paramount importance. We can proudly say that most of our students have found a job while they are still in the last leg of their training .some of the students place in the past month have been at Fare Portal,BIS,RDM and travel agencies such as Delfly, Rohilla InfoTech's and Uniglobe.
